Quotation Master & PDF Generation — Technical Documentation

> **Haven Technical Services (HTS)**

> Based on client-provided quotation reference templates

---

1. Overview

The Quotation Master module covers three distinct quotation types used by Haven Technical Services:

| Type | Description | Rate Table Columns |

|---|---|---|

| **FAT by Haven** | Manpower supply — accommodation & transport provided by Haven | SL No, Category, Rate per Hour |

| **FAT by Client** | Manpower supply — accommodation & transport provided by Client | SL No, Category, Rate per Hour |

| **Multiple Option** | Manpower supply — both FAT rates shown side by side | SL No, Category, FAT-Haven, FAT-Client |

| **Room Rent / Camp** | Room and accommodation rental services | SL No, Room Capacity, Available Room, Monthly Rate (AED) |

---

2. Quotation Number Format

```
HTS - [CLIENT_CODE] - [MMYY] - [SEQUENCE]
```

Examples:

- `HTS-VKSM-0626-1591` → Client: VKSM, Month: June 2026, Sequence: 1591

- `HTS-POW-0526-1587` → Client: POW, Month: May 2026, Sequence: 1587

- `HTS-HENN-0525-001` → Client: HENN, Month: May 2025, Sequence: 001

Rules:

- Prefix is always `HTS`

- Client code is a short alphanumeric identifier (e.g. VKSM, POW, HENN)

- Date is MMYY format (zero-padded month + 2-digit year)

- Sequence is auto-incremented per client per month, zero-padded to at least 3 digits

---

3. Database Schema — Quotation Master

3.1 `QuotationMaster` Table

| Column | Type | Description |

|--------|------|-------------|

| `QuotationID` | INT (PK, Identity) | Primary key |

| `QuotationNo` | VARCHAR(50) | Generated quotation number e.g. `HTS-POW-0526-1587` |

| `QuotationType` | VARCHAR(20) | `FAT_HAVEN`, `FAT_CLIENT`, `MULTIPLE`, `ROOM_RENT` |

| `ClientID` | INT (FK) | References client/account master |

| `ClientCode` | VARCHAR(20) | Short client code used in quotation number |

| `QuotationDate` | DATE | Date of quotation |

| `ValidityDate` | DATE | Expiry date of quotation |

| `ValidityDays` | INT | Number of days valid (default 7 for manpower, custom for room rent) |

| `Subject` | VARCHAR(255) | Quotation subject line |

| `KindAttention` | VARCHAR(100) | Contact person name |

| `PaymentTermsDays` | INT | Payment due days (default 30) |

| `SecurityChequeRequired` | BIT | 1 = security cheque mandatory (FAT by Client only) |

| `SecurityChequeDays` | INT | Number of working days for cheque (default 30) |

| `DemobilizationNoticeDays` | INT | Notice period in days (3 for FAT-Client, 7 for FAT-Haven) |

| `MinWorkingHoursPerDay` | DECIMAL(4,1) | Minimum hours per day (default 10) |

| `OvertimeRate1` | DECIMAL(4,2) | Multiplier beyond min hours on weekdays (default 1.25) |

| `OvertimeRate2` | DECIMAL(4,2) | Multiplier for Sunday/night hours (default 1.5) |

| `OvertimeRate3` | DECIMAL(4,2) | Multiplier for public holidays (default 2.5) |

| `RamadanWorkHours` | DECIMAL(4,1) | Work hours during Ramadan (default 6) |

| `RamadanBillHours` | DECIMAL(4,1) | Billed hours during Ramadan (default 8) |

| `AccommodationBy` | VARCHAR(10) | `HAVEN` or `CLIENT` or `NA` |

| `TransportBy` | VARCHAR(10) | `HAVEN` or `CLIENT` or `NA` |

| `GasChargePerRoom` | DECIMAL(10,2) | For Room Rent type only (default 100 AED) |

| `MinStayMonths` | INT | For Room Rent type only (default 1) |

| `Status` | VARCHAR(20) | `DRAFT`, `SENT`, `CONFIRMED`, `EXPIRED`, `CANCELLED` |

| `Remarks` | NVARCHAR(MAX) | Internal remarks |

| `CreatedBy` | INT (FK) | User who created |

| `CreatedDate` | DATETIME | Created timestamp |

| `ModifiedBy` | INT (FK) | User who last modified |

| `ModifiedDate` | DATETIME | Last modified timestamp |

| `IsDeleted` | BIT | Soft delete flag |

| `CompanyID` | INT (FK) | Haven company ID |

3.2 `QuotationLineItems` Table

For Manpower quotation types (FAT_HAVEN, FAT_CLIENT, MULTIPLE):

| Column | Type | Description |

|--------|------|-------------|

| `LineItemID` | INT (PK, Identity) | Primary key |

| `QuotationID` | INT (FK) | References `QuotationMaster` |

| `SlNo` | INT | Serial number (display order) |

| `Category` | VARCHAR(100) | Worker trade/category name (e.g. Mason, Carpenter) |

| `RatePerHour_Haven` | DECIMAL(10,2) | Rate when FAT by Haven (NULL for FAT_CLIENT only) |

| `RatePerHour_Client` | DECIMAL(10,2) | Rate when FAT by Client (NULL for FAT_HAVEN only) |

| `IsDeleted` | BIT | Soft delete flag |

3.3 `QuotationRoomItems` Table

For Room Rent type only:

| Column | Type | Description |

|--------|------|-------------|

| `RoomItemID` | INT (PK, Identity) | Primary key |

| `QuotationID` | INT (FK) | References `QuotationMaster` |

| `SlNo` | INT | Serial number |

| `RoomCapacity` | VARCHAR(50) | Room capacity description (e.g. "4-bed sharing") |

| `AvailableRooms` | INT | Number of rooms available |

| `MonthlyRate` | DECIMAL(10,2) | Monthly rate in AED |

| `IsDeleted` | BIT | Soft delete flag |

3.4 `QuotationSequence` Table

For auto-generating quotation numbers:

| Column | Type | Description |

|--------|------|-------------|

| `SequenceID` | INT (PK, Identity) | Primary key |

| `ClientCode` | VARCHAR(20) | Client short code |

| `MonthYear` | CHAR(4) | MMYY format e.g. `0626` |

| `LastSequence` | INT | Last used sequence number |

---

4. Quotation Types — Field Behaviour Matrix

| Field | FAT by Haven | FAT by Client | Multiple Option | Room Rent |

|-------|:---:|:---:|:---:|:---:|

Rate per Hour (Haven)	■	■	■	■
Rate per Hour (Client)	■	■	■	■
Room Capacity	■	■	■	■
Available Rooms	■	■	■	■
Monthly Rate	■	■	■	■
Working Hours Terms	■	■	■	■
Overtime Terms	■	■	■	■
Ramadan Terms	■	■	■	■
Demobilization Notice	■	■	■	■
Security Cheque	■	■	Conditional	■
Accommodation by Haven	■	■	■ (in haven col)	■
Accommodation by Client	■	■	■ (in client col)	■
Gas Charge per Room	■	■	■	■
Min Stay	■	■	■	■

---

5. Terms & Conditions — Default Values by Type

5.1 Manpower (All FAT types)

Term	FAT by Haven	FAT by Client
Min working hours/day	10	10
Overtime (>10hrs weekday)	1.25×	1.25×
Overtime (Sunday/Night 9PM–4AM)	1.5×	1.5×
Overtime (Public Holidays)	2.5×	2.5×
Ramadan work hours	6 hrs/day	6 hrs/day
Ramadan billed hours	8 hrs/day	8 hrs/day
Invoice basis	Monthly / approved timesheets	Monthly / approved timesheets
Timesheet deadline	5th of each month	5th of each month
Payment terms	30 days from invoice	30 days from invoice
Security cheque	■ Not required	■ 30 working days mandatory
Demobilization notice	7 days	3 days
Quotation validity	7 days	7 days
PPE (Basic)	Provided by Haven	Provided by Haven
PPE (Additional)	By Client	By Client
Gate passes	By Client	By Client
Accommodation	**By Haven**	**By Client**
Transport	**By Haven**	**By Client**
Kitchen	**By Haven**	**By Client**

5.2 Room Rent / Camp

Term	Default Value
Gas charge	AED 100 per room
Property damage	Billed to client
ID copies	Required per worker
Kitchen	Shared kitchen access included
Water & Electricity	Included in rate
Minimum stay	1 month
Payment	Advance, same date monthly
Quotation validity	Custom (set at creation)

---

6. PDF Generation — Layout Specification

6.1 Page Structure (All Types)

```
■■■■■■■■■■■■■■■■■■■■■■■■■■■■■■■■■■■■■■■■■■■

### 6.2 Rate Table — Per Quotation Type

**FAT by Haven / FAT by Client:**
```
SL No	Category	Rate per Hour (AED)
1	...	...
2	...	...
```

**Multiple Option:**
```
SL No	Category	FAT-Haven (AED/Hr)	FAT-Client (AED/Hr)
1	...	...	...
2	...	...	...
```

**Room Rent / Camp:**
```
SL No	Room Capacity	Available Room	Monthly Rate (AED)
1	...	...	...
2	...	...	...
```

---

## 7. Stored Procedures

### 7.1 `WebInsertUpdateQuotation`

**Input Parameters:**

| Parameter | Type | Description |
```

|-----------|------|-------------|

| `@QuotationID` | INT OUTPUT | 0 for new, existing ID for update |

| `@QuotationType` | VARCHAR(20) | `FAT_HAVEN`, `FAT_CLIENT`, `MULTIPLE`, `ROOM_RENT` |

| `@ClientID` | INT | Client account ID |

| `@ClientCode` | VARCHAR(20) | Short client code |

| `@QuotationDate` | DATE | Quotation date |

| `@ValidityDays` | INT | Number of valid days |

| `@KindAttention` | VARCHAR(100) | Attention person |

| `@PaymentTermsDays` | INT | Days for payment |

| `@SecurityChequeRequired` | BIT | Security cheque flag |

| `@DemobilizationNoticeDays` | INT | Notice days |

| `@AccommodationBy` | VARCHAR(10) | HAVEN / CLIENT / NA |

| `@TransportBy` | VARCHAR(10) | HAVEN / CLIENT / NA |

| `@LineItemsJSON` | NVARCHAR(MAX) | JSON array of line items |

| `@CompanyID` | INT | Company ID |

| `@CreatedBy` / `@ModifiedBy` | INT | User ID |

Logic:

1. If `@QuotationID = 0`, generate new quotation number using sequence table
2. Insert/Update `QuotationMaster`
3. Parse `@LineItemsJSON` and upsert into `QuotationLineItems` or `QuotationRoomItems`
4. Return `@QuotationID` as OUTPUT

7.2 `WebGetQuotationMaster`

| Parameter | Type |

|-----------|------|

| `@CompanyID` | INT |

| `@QuotationID` | INT (optional, 0 = all) |

| `@Status` | VARCHAR(20) (optional) |

Returns: Quotation list with client name, quotation number, type, date, status.

7.3 `WebGetQuotationPDF`

| Parameter | Type |

|-----------|------|

| `@CompanyID` | INT |

| `@QuotationID` | INT |

Returns: Full quotation data including all line items for PDF rendering.

7.4 `WebGetQuotationSequence`

Parameter	Type
`@ClientCode`	VARCHAR(20)
`@MonthYear`	CHAR(4)

Returns next sequence number and updates the sequence table atomically.

---

8. API Endpoints

Method	Endpoint	Description
POST	`/api/InsertUpdateQuotation`	Create or update quotation
GET	`/api/GetQuotationMaster`	List all quotations
POST	`/api/GetQuotationPDF`	Get full quotation data for PDF
POST	`/api/DeleteQuotation`	Soft delete quotation
GET	`/api/GetQuotationTypes`	Returns available types with labels

---

9. Quotation Number Generation Logic

```javascript
// Node.js — generate quotation number
const generateQuotationNo = async (clientCode, pool) => {
const now = new Date();
const monthYear = String(now.getMonth() + 1).padStart(2, '0') +
String(now.getFullYear()).slice(-2); // e.g. "0626"

const result = await pool.request()
.input('ClientCode', sql.VarChar(20), clientCode)
.input('MonthYear', sql.Char(4), monthYear)
.execute('WebGetQuotationSequence');

const seq = String(result.recordset[0].NextSequence).padStart(4, '0');
return `HTS-${clientCode}-${monthYear}-${seq}`;
// e.g. HTS-VKSM-0626-1591
};
```

---

10. Frontend — Quotation Master Form Fields

Header Section (All Types)

- Client (dropdown — from account/client master)

- Kind Attention (text)

- Quotation Date (date picker — defaults to today)

- Quotation Type (dropdown: FAT by Haven / FAT by Client / Multiple Option / Room Rent)

- Validity Days (number — default 7 for manpower, editable for room rent)

Rate Table Section (Dynamic)

- Add/remove rows

- For manpower: Category (text/dropdown), Rate per Hour

- For multiple: Category, FAT-Haven Rate, FAT-Client Rate

- For room rent: Room Capacity, Available Rooms, Monthly Rate

Terms & Conditions Section (Auto-filled, Editable)

- Populated from defaults based on Quotation Type selected

- All fields editable before saving

- Key fields: Min hours, Overtime rates, Demobilization days, Payment days, Security cheque toggle, Validity

Signatory Section

- Haven signatory: Name, Designation, Mobile

- Client representative: Name, Designation, Mobile (filled on confirmation)

---

11. PDF Closing Text — Per Type

All Manpower Types:

> "If the above rates and terms are agreeable, we kindly request you to confirm by returning a signed and stamped copy of this quotation. Please ensure to mention Quotation No.: **[QUOTATION_NO]** while preparing the LPO."

Room Rent:

> "Should the above terms and rates meet your expectations, kindly confirm by returning a signed and stamped copy of this quotation. We look forward to serving your accommodation needs. Please contact us for any custom requirements or clarifications."

---

12. Status Flow

```
DRAFT → SENT → CONFIRMED
■
EXPIRED / CANCELLED
```

- **DRAFT**: Created, not yet sent to client

- **SENT**: PDF generated and sent
- **CONFIRMED**: Client signed and returned
- **EXPIRED**: Validity date passed with no confirmation
- **CANCELLED**: Manually cancelled

---

13. Validation Rules

Rule	Detail
Client required	Must select a client before saving
At least 1 line item	Cannot save with empty rate table
Rate > 0	All monetary rates must be positive
Quotation date required	Cannot be blank
Validity days > 0	Must be at least 1
Client code required	For quotation number generation
Duplicate prevention	Same client + same month + same type should warn user
Room rent gas charge	Defaults to 100 AED, must be ≥ 0

Document prepared based on Haven Technical Services quotation reference templates.
